GRAPHIC DESIGNER

My passion for graphic design started early while growing up in Lubbock, Texas. I love taking black and white ideas and breathing life into them with color. One of my favorite things is the connectivity of projects, taking individual pieces and creating a cohesive collection. While easily able to work independently and without constant instruction, I work well with others and thrive when I'm contributing to team goals. I love a challenge - whether taking on a tough project or learning a new skill - I am willing to do what it takes to get the job done well.
